Legends :

- Slim Type Drives
- Drive can't support this format .

Color Codes :

- This shows that media is Not Sensed by the Drive.
- The media encountered Writing or Readback Error.
- The media supported at lower speed than rated speed.
- The media encountered speed drop in writing or Readback.
- This combination is perfectly according standard.
- The media perform marginally on the drive.

## Media Compatibility : CD-R 52x on DVDRW IT Drives

### Legends :

	Slim Type Drives
	Drive can't support this format .

### Color Codes :

	This shows that media is Not Sensed by the Drive.
	The media encountered Writing or Readback Error.
	The media supported at lower speed than rated speed.
	The media encountered speed drop in writing or Readback.
	This combination is perfectly according standard.
	The media perform marginally on the drive.

## Legends :

Slim Type Drives  
Drive can't support this format .

## Color Codes :

This shows that media is Not Sensed by the Drive.  
The media encountered Writing or Readback Error.  
The media supported at lower speed than rated speed.  
The media encountered speed drop in writing or Readback.  
This combination is perfectly according standard.  
The media perform marginally on the drive.

## Media Compatibility : HSRW on DVDRW IT Drives

Updated : 28-04-09

### Legends :

	Slim Type Drives
	Drive can't support this format .

### Color Codes :

	This shows that media is Not Sensed by the Drive.
	The media encountered Writing or Readback Error.
	The media supported at lower speed than rated speed.
	The media encountered speed drop in writing or Readback.
	This combination is perfectly according standard.
	The media perform marginally on the drive.
